SAFETY TIPS

- Obey all traffic regulations, signs and signals. Ride on the right with the flow of traffic.
- Use hand signals to tell motorists and pedestrians what you intend to do.
- Don't weave between closely parked cars; watch out for doors opening.
- Slow down at all intersections and proceed with caution.
- Yield the right of way to all pedestrians.
- Watch for road hazards such as gravel, sewer grates, ice or debris.
- Never ride with headphones; always wear a helmet.
- Make sure you are visible at night. Most bikes require a white headlight in front and a red rear reflector or taillight. Reflective pedals and clothing aid visibility.
- Ride a bike that is the proper size for you and keep your bike in good repair. Check brakes and tires before each ride.
